Hiring Manager
Oracle

Dear Hiring Manager,

I am writing to express my interest in the Intern role at Oracle. As a Computer Science Engineering student at KIIT Bhubaneswar, currently in the end of my sixth semester, and simultaneously pursuing a B.Sc in Data Science and Programming from IIT Madras, I am eager to apply my skills and enthusiasm to a dynamic and innovative team.

Throughout my academic and professional journey, I have cultivated a strong foundation in programming languages such as Python, Java, and JavaScript, alongside web development tools including WordPress, Elementor, and Figma. My internship at Inverse Studio honed my technical and design sensibilities, while my entrepreneurial venture, *The Palash Clothing*, allowed me to lead end-to-end product development and branding for an authentic handloom-based clothing brand.

Beyond technical competence, I bring a collaborative mindset and a proven ability to manage projects and solve problems creatively. Projects like the UrbanFlow Ride Booking App and a Library Management System demonstrate my commitment to building practical, impactful solutions.

I would be thrilled to contribute to Oracle's mission and bring my blend of technical expertise and creative thinking to your team. Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your organization.

Sincerely,
Avinash Rath
